CITY RESIDENCES FOR RENT

Dear Easy Grass:

I thought it was going to be an arduous, if not cost prohibitive, task to transform an unsightly 10th floor rooftop into a welcoming and usable space. That is until we came across Easy Grass.

I have to tell you, even during the installation process, before the job was complete, our office was receiving calls complementing our decision to cover the roofing material with grass; literally converting the area from being unattractive and drab to a warm and welcoming open space. Your turf truly offers a natural look and feel; minus the aggregation and costs of upkeep.

On behalf of the staff and residents of One Broadway Brickell, thank you for helping us ensure our promise of an affordable and elegant lifestyle.
We're thrilled with the outcome.

Sincerely,

Gio Barberena
