*And  
Kitty Komforts Kattery*

**March 15, 2010**

**To whom it may concern:**

**This letter introduces Easy Grass.**

**Easy Grass installed 1,500 square feet of turf covering our outdoor recreation and walking area.**

**The installation completed in early February 2010 is beautiful and very well received by our customers, canine, feline and human alike.**

**We walk around 60 dogs on this turf every day two to three times which translates to 120 to 180 dogs. To this point the installation has proven to stand up to this level of commercial use and is easily maintained by just rinsing with fresh water and disinfecting solution.**

**We also use Easy Grass indoors in our cattery. Of course, the cats do not void on it as we use litter but they seem to enjoy walking on it and it also adds much to the aesthetic appeal of the cattery.**

**In researching this kind of turf we found Easy Grass to be more than competitive on price.**

**You may see this installation through the PetCam on our website at [wagglebrospetresort.com](http://wagglebrospetresort.com).**

**Thank you Raul and Manny,**

**Sincerely,**

**Everett Burrell, Vice President, Owner  
Waggle Brothers, Inc.
